Modified Services at SDHS Escondido Campus During COVID-19 Outbreak

San Diego Humane Society is taking extra precaution after reports of secondary exposure to virus

San Diego – San Diego Humane Society is temporarily suspending some public-facing services at the Escondido Campus after we learned an employee’s family member tested positive for COVID-19. The public services impacted include **adoptions, vaccines, licensing and owner-requested euthanasia.**

Although the employee does not have COVID-19 symptoms, SDHS is informing everyone who has worked or volunteered at the Escondido Campus within the past 14 days that they may have been exposed to COVID-19. In addition to reducing services to limit foot traffic, we have taken immediate measures to sanitize the Escondido Campus, including deep cleaning and disinfecting potentially affected workspaces.

San Diego Humane Society’s campuses in San Diego and Oceanside are open daily, but by appointment only. Guests can call 619-299-7012 to make an appointment. Starting Friday, March 20, our public hours of operation will be 10 a.m. - 4 p.m.

If you find hurt or abandoned wildlife, [Project Wildlife](#) remains open and available to help. Please bring wildlife to our Pilar & Chuck Bahde Wildlife Center at 5433 Gaines St., San Diego.

Be assured that we will have staff available to feed, clean and provide enrichment for the animals in our care. Our Humane Law Enforcement Officers are responding to emergency calls such as law enforcement assistance, injured or sick stray animals, cruelty and neglect complaints, bite complaints, and dangerous and aggressive dog complaints.

Please visit our website sdhumane.org to stay apprised of any updates.
