

Thank You for Adopting from San Diego Humane Society!

If you are adopting a puppy/dog:

Dogs in our care have been exposed to Kennel Cough, which is contagious and could be described as a “dog cold.” Symptoms can include watery eyes, watery nose and/or coughing. Similar to a child that is exposed to extra germs in a school environment, your dog may or may not contract kennel cough. If your dog does come down with kennel cough, it will be your responsibility to take them to a vet to get them the proper treatment.

If you are adopting a kitten /cat:

Cats in our care have been exposed to the Upper Respiratory Infection (URI) which is contagious and could be described as a “cat cold.” Symptoms can include watery eyes, watery nose and/or sneezing. Like a child that is exposed to extra germs in a school environment, your cat may or may not contract URI. If your cat does come down with URI, it will be your responsibility to take them to a vet to get them the proper treatment.

Your dog/cat/rabbit has been microchipped:

If your pet is microchipped with a company other than Home Again, you will be given a registration form to complete. Please provide your current contact information. If your pet has a Home Again microchip, you will be contacted by the microchip company in the next few days, welcoming you. If you need to change your address or phone number, you will do that with the microchip company directly. If your animal ever gets lost, the animal’s microchip number will be linked to you, so the animal can be returned to you.

Your kitten /cat or puppy /dog has been spayed or neutered:

Your animal may have been recently spayed or neutered. If the animal was recently spayed or neutered, we ask that you wait 10 days from the time of the surgery to bathe your animal. You can find the date of spay/neuter in the animal’s Medical History Record that will be emailed to you. Surgical glue was used to seal the surgery site and we don’t want to prematurely dissolve that glue by bathing the animal before 10 days. If you notice your animal bothering the surgery site, you may need to purchase an e-collar and contact your own vet for additional information.

Your adopted animal is currently up to date on all of their vaccines:

Each animal is current on all the necessary vaccines when they are adopted. You can find the vaccine history in the animal’s Medical History Record that will be emailed to you the day you adopt. We suggest continuing a flea treatment and necessary vaccines after adoption. After adoption, future vaccination needs may change. Please speak to your vet regarding your pet’s health and lifestyle to determine what future vaccinations are needed and when.

You’ll also receive these additional benefits:

- **We proudly feed all of our animals Purina products, and we recommend you do the same as you start your journey to happily ever after. You will receive a complementary bag of Purina food upon adoption.**
- **We have an ADOPTION GUARANTEE!**
If you need to return your adopted animal for whatever reason, you can do so. You must call our Admissions department to schedule a return. Phone numbers for each location are listed on the back of this flyer.
- **10% off any purchase you make in Muttique on your adoption day (Oceanside location only)**
- **Bayer coupons**
- **Petco “Welcome to the Family” discount card**

WHAT DO YOU DO NEXT?

Schedule your free vet exam (you have 2 options):

- Option 1 - Using the VCA flyer, make an appointment at any VCA hospital listed on the back of the flyer
 - This certificate is valid within the first 14 days after adoption
- Option 2 - Go to any vet of your choice using the "Free Vet Exam Certificate" given at time of adoption
 - This certificate is valid within the first 7 days after adoption
- If your vet discovers a medical concern that we did not (something not in the waiver/contract)
 - Call our Wellness Center at (619) 279-5085 within 14 days of adoption to schedule a post adoption appointment before approving any treatment through your own veterinarian.

Register with Trupanion Pet Insurance within the first 24hrs of adoption, using the promotion code on your info sheet:

- You will have 30 days of pet insurance if you register in the first 24hrs. after adopting.
- Worry free guarantee: If for any reason you want to cancel your coverage, you can contact Trupanion within the first 30 days for a full refund.
- If you enroll in the first 24hrs of adoption, the \$35 enrollment fee will be waived and your pet insurance will start immediately. There is no waiting period!

Register with Finding Rover (www.findingrover.com):

- This is a free app to assist in finding animals faster, if they go missing.
- This app uses facial recognition to match your dog to your information. Your pet's photo has already been uploaded to Finding Rover!
- To register, all you need is the email you gave to us at the time of adoption. From your cell phone, go to the Finding Rover website and follow the instructions for registration.

Behavior and Training

- To schedule your free 1-hour training session with one of our expert trainers, please call 619-299-7012 ext. 2247.
- For behavioral questions and training tips, please visit our website at sdhumane.org, and click on "What We Do." You will find various, free articles on behavior and training topics. You can also email us at behavior@sdhumane.org or call 619-299-7012 ext. 2244 for behavior questions or training tips.
- Adopters receive 20% off certain training classes. Contact us for details.
- To register for classes, please see campus phone numbers below.
