

Adopt PATCHES

8 YEARS YOUNG · MALE · DOMESTIC SHORT HAIR

I was in a lot of pain when I first came to the shelter. You see, I had lived with a large bladder stone for over a year before I was brought in! Thankfully, the medical team here was able to quickly remove it and I have been like a new cat ever since!

Now I'm a snuggling, muffin-making purr machine! And the only thing left to make my life complete would be to find a loving home of my very own.

What do you say? Can I begin my bright new future with you?
